

‘Birthday Party’ and ‘Welcome Party for new children’

written by Franziska Elisabeth Ferstl (volunteer)

On Friday, the 14th of June, we celebrated a party, combining a birthday party and a welcome party for the new children. It was the party for all the children and staff, who had their birthday since the last celebration, also welcoming the new children. There are forty-nine new students and one hundred and thirty-two students (81 boys and 51 girls) in total this year in School for Life. Every five Family house provided the foods they prepared, so everyone can eat various foods as a big buffet.

School Director Khun Siriporn Hanfaifa started the evening party with some inspiring words. She asked old children to help new children, be friendly and work together. Next, all of us sang the School for Life song, which encouraged the students for their best and work together. Traditionally all the birthday children gathered around the birthday cake, and all others sang a happy birthday song. Then, every one of birthday children made their wish by blowing out the birthday candles on the cake. After it the students got various foods while music was playing. It was a nice evening for everybody to come together as a big family.

We would like to thank Mr. Markus Walter tarneller and the sponsors who donated the money to celebrate a birthday party for the children every month throughout the year.
